

Weekly Report 2016.06.20-2016.06.26

Progress:

1. Huawei Project.

This week Zhenhua sent us the requirement, we discussed the requirement and divided the tasks into two parts, one is the multi-center ego network, the other is the path visualization. I also talked with Zhenhua and asked him about the question we have about the requirement.

2. Vis poster

This week I finished two posters, one is TCPTree, the other is SpannerFinder.

3. Home work

I finished the home work of 前沿技术讲座

Plan:

1. Huawei Project

Finish the interactions.

Finish the requirement analysis.

2. Vis Submission

Construct the test data.
